

FROZEN SEMEN SALES AGREEMENT

Agreement made this day of 20..... between Get Spotted Ltd t/a Sparkling Acres Sportaloosas (the Seller), being the owner of the Semen and

Name (the Mare Owner):

Address:

Town/City: Postcode:

Phone: Email:

being the person responsible for the Mare, whether owned or leased.

The Mare Owner agrees to buy doses (indicate quantity) of frozen semen at \$900 including GST each from the Stallion Sartor's Supermodel Lori's Flashpoint Af Lyn (please indicate which applies).

All veterinary fees incurred in the process of inseminating the mare with frozen semen will be at the cost of the Mare Owner.

Semen release fees, tank hire and transportation costs will be at the cost of the Mare Owner. These fees are charged direct to the Mare Owner by Equibreed Limited in Te Awamutu, the facility where the Semen is stored.

The Seller accepts payment by credit card (3% surcharge applies) or direct credit:

Account name: Get Spotted Limited

Account number: 12-3136-0047602-00

Bank: ASB Wellsford

Terms and Conditions of Sale

1. A "dose" is defined as a single insemination unit of 8 x 0.5 ml straws, containing a minimum of 420 million progressively motile sperm post-thaw, upon thawing using the Select Breeders Service Instructions for Handling and Thawing Frozen Semen.
2. The semen is stored at Equibreed in Te Awamutu. Mares can be inseminated there or semen will be sent on request to qualified veterinarians or breeding facilities with competent breeding technicians. These must be approved by the Seller before the Semen is dispatched.
3. Both parties acknowledge that the objective of this Agreement is to produce a live foal from the Semen purchased by the Mare Owner, however a live foal guarantee is not available under this agreement.
4. Frozen semen from the Stallion has resulted in pregnancies. The Stallion is not resident in New Zealand, so there is a limited amount of frozen semen available. The Seller recommends that the Mare Owner confirms that the Mare is in excellent reproductive health and is of an appropriate breeding age before insemination, to maximise their chances of conception.
5. The Semen will be dispatched in single doses unless otherwise arranged with the Seller.
6. All fees are payable upon execution of this Agreement. The Mare Owner agrees and understands that no semen will be

shipped until all fees have been paid.

7. The Mare Owner agrees that the Semen will be handled and inseminated by a qualified veterinarian or competent breeding technician.

8. The Mare Owner agrees to release the Seller from any responsibility or liability for lost, delayed or damaged semen shipments due to circumstances beyond their control.
